

Jane Doe

Software Engineering Team Lead

Tel Aviv, Israel · +972-50-123-4567 · jane.doe@example.com · linkedin.com/in/janedoe

SUMMARY

Hands-on engineering leader: 10+ years building production systems, 6+ years leading teams of 4 to 8 across Ad Tech and IoT. Takes products from discovery through architecture to production, and hires and grows the engineers who own them.

EXPERIENCE

Aug 2024 - Present

Software Engineering Team Lead

Northwind Sensing (Meridian Group) Herzliya, Israel

- Hired and onboarded 3 of 4 engineers, and set review standards, delivery practices, and on-call from day one
- Shipped an IoT and fiber-optic perimeter security platform from requirements to production in under 12 months
- Architected the system end to end: React, NestJS microservices, Kafka, PostgreSQL/ TimescaleDB, Kubernetes, AWS
- Built event-driven pipelines ingesting 12K sensor events/sec with real-time geospatial alerting
- Cut local environment setup from 2 days to 20 minutes with a Tilt and Minikube Kubernetes dev loop
- Embedded AI coding assistants across design, review, and CI/CD, cutting review turnaround by 35%

Mar 2021 - Jul 2024

R&D Team Lead

Contoso Media (Fabrikam Group) Tel Aviv, Israel

- Led 7 engineers and 1 DevOps engineer in a dual Team Lead and R&D Manager role, staying hands-on in code and architecture
- Rebuilt core Ad Tech services for scale and reliability, supporting 800M requests/day at peak
- Built ClickHouse and queue pipelines processing 2B events/day for analytics and revenue optimization
- Reduced cloud spend by 38% through architecture changes, usage analysis, and closer DevOps collaboration
- Owned roadmap, sprint planning, and technical direction across 4 concurrent initiatives with Product and AdOps

Jan 2016 - Feb 2021

Globex Digital

Tel Aviv, Israel

Engineering Team Lead

2018 - 2021

- Partnered with the CPO, CTO, and CEO to turn business goals into quarterly engineering plans
- Scaled Ad Tech products to 12 million monthly users with a focus on reliability and monetization
- Managed distributed teams across two countries and recruited for the US engineering team
- Introduced quarterly planning, sprint process, and release discipline, shortening deploys from monthly to twice weekly

Full Stack Developer

2016 - 2018

- Built product features and Ad Tech integrations in PHP, MySQL, and Angular on GCP

2009 - 2016

Frontend and Backend Developer

Earlier roles at product and web companies

- Built and maintained web applications in PHP, MySQL, Angular, HTML, and CSS across feature work, integrations, and production support

SKILLS

Leadership	Hiring and onboarding, mentoring, performance reviews, roadmap ownership, cross-functional delivery
Languages	TypeScript, Node.js, React/Next.js, NestJS, Python
Data	PostgreSQL (PostGIS), TimescaleDB, ClickHouse, MongoDB, Redis, Kafka
Platform	AWS (EKS, RDS, Lambda, S3, CloudFront), Kubernetes, Docker, GitHub Actions, Datadog, Sentry
AI-assisted delivery	Coding assistants embedded in architecture, code review, documentation, and CI/CD

EDUCATION

B.Sc. Computer Science	Northern Institute of Technology	2012
Practical Engineering, Interactive Communication	Northern Institute of Technology	2008

ADDITIONAL

Military service	Air Force, electronic warfare, mandatory service
Interests	Professional car detailing and performance driving
